NAME Harris Corporation

This Special Temporary Authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This Special Temporary Authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control the Government of the United States conferred by Section 706 of the Communications Act of 1934.

Special Temporary Authority is hereby granted to operate the apparatus described below:

Purpose Of Operation:

**FEDERAL
COMMUNICATIONS
COMMISSION**

Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Harris has provided an overall project manager and in case of interference issues, a stop buzzer contact for these demonstrations/experiments: Paul May, Tel. 414-258-1113; E-mail: pmay@harris.com.
- (3) Harris understands that an experimental license only permits shared use of the subject radio frequencies and that it may have to coordinate with other entities licensed for experimental purposes.
- (4) Operation of the equipment will not be used in mission-critical operations or in the delivery of live transmissions in duties to protect life, property, or safety.
- (5) Harris recognizes that its experimental operation will be secondary and must not cause interference to any operations licensed to FirstNet. Harris further understands that any primary operations have no obligation to mitigate interference to the experimental operations.
