Special Conditions:

- (1) The station identification requirements of Section 5.115 of the Commission's Rules are waived.
- (2) FirstNet can request the FCC to order the licensee to cease operations within 24 hours.

Special Conditions:

- (3) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (4) Licensee project is limited to proof of concept demonstrations and testing and will not involve live-duty operations to protect life, property, or safety.
- (5) Licensee must accept interference from any other user of Band 14 and all operations by licensee will be on a secondary basis.
- (6) Licensee must verify that there is no current potential for interference with FirstNet operations or those approved to operate in Band 14 per license (i.e., any Band 14 incumbents).
- (7) A POC shall be established and sent to FirstNet upon STA approval with "kill switch" authority; Licensee agrees to cease operations at request of FirstNet immediately upon receipt of request to kill switch POC until such time, as determined by FirstNet, that project may continue.
- (8) Licensee agrees that FirstNet has the right to monitor its operations.
- (9) Licensee understands that STAs are for a limited period and that FirstNet must ensure its spectrum is clear as circumstances change and as deployment and acquisition timing becomes closer; therefore, licensee agrees that no extensions or reapplications shall be sought for this STA.
