Your application has been approved by NTIA except for the following deletions requested by FAA:

315.75-319.75 MHz, 4M00W2D

These restrictions could be reviewed if a geographical range better defined than "Western region and Adirondack area of NY State" is specified.

Please advise whether you want us to grant the license with those deletions now or if you would like to redefine your area of operation and have us send it back to FAA for recoordination.
