DISMISSED-WITHOUT PREJUDICE

Dear Attn: George Y. Wheeler, Holland & Knight LLP,

This refers to application, File No. 0234-EX-RR-2013, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. FAA is developing a new system-Datcom that will provide datalink and other services to aircraft. In order to do so, a portion of the air/ground band, controlled by FAA, is being cleared for the new system. HQ FAA spectrum set a 31 December 2012 deadline to clear existing users, but agreed to allow the Melbourne use to continue until June 2013, to accommodate licensee's move to other portions of the spectrum. This extended deadline has now passed, so this application is hereby dismissed.
