

HARRIS CORPORATION
SPECIAL TEMPORARY AUTHORITY
EXPERIMENTAL APPLICATION
2.4 GHz, CAMP PENDLETON, CA

FREQUENCY AMENDMENT

Applicant is hereby amending the proposed frequency range in its application for experimental special temporary authority (File No. 0346-EX-ST-2003).

Applicant originally proposed to operate in the 2401-2473 MHz frequency range. At the request of local broadcast frequency coordinator for the Camp Pendleton, CA area, applicant's testing will be limited to the 2401-2443 MHz frequency range.

No other changes are being made to the original application.
