Wright Patterson AFB, OH 45433-7200

SUBJECT: Request For Sponsorship FCC File No. 0373-EX-PL-2007, Pertaining To Use Of UHF Frequencies In And About Melbourne, Florida For Wideband Waveform Testing

References:

- a. FCC Form 442 File 0373-EX-PL-2007.Pdf (Attached), Copy Of FCC Form 442 Harris Application For New Or Modified Radio Station Under Part 5 Of FCC Rules - Experimental Radio Service (Other Than Broadcast)
- b. Exhibit I_Description Of Experiment File 0373-EX-PL-2007.Pdf, Copy Of Supporting Description For Application In Reference a.
- c. Reference To DD-1494 For The AN/PRC-117G

Dear Ms. Leggett:

Please review this letter requesting sponsorship of our application for the use of UHF frequencies in and about the Melbourne, Florida area for the development of a wideband waveform. If ASC authorizes the request for sponsorship, please sign on page two in the space indicated and provide the necessary contact information for the FCC. Fax the signed document to the undersigned at 585-241-8339.

Harris Corporation RF Communications Division has applied for the use of three bands of UHF frequencies referenced in the attached files, for the purpose of developing a wideband waveform to be used in our Falcon™ III products. After review by the Military Assignment Group (MAG) a letter of sponsorship was requested asking for a military point of contact who could be contacted in support of this application. The USAF (ASC in support of AFSOC) is currently the sponsor of the application for equipment frequency allocation (Form DD-1494) for the AN/PRC-117G, which uses a form of this waveform listed on the application.

As you know, Harris Corporation, RF Communications Division is a major provider of secure communications products to the Department of Defense (DoD), other US Government agencies, and authorized foreign governments. The most current products under development at Harris are SIERRA™ II and FALCON™ III product families. These wideband waveforms will provide the war fighter with secure, reliable, networked communications in a tactical environment. The sponsorship of this application will allow Harris to continue improving those waveforms for added capability in the future.

The Harris point of contact and unclassified mailing address for this effort are as follows:

Robin Sheets, Contracts Manager
1680 University Avenue.
Rochester, NY 14610
Phone: 585.241.8227
Fax: 585.241-8339
Email: rsheets@harris.com

Should you have any questions feel free to contact me as described above. Thank you for your attention to this matter.

Respectfully,

Robin Sheets
Contracts Manager
