Subject: Harris application, 0650-EX-ST-2004

<<FCC File # 0650-EX-ST-2004 [Reference Number: 3310]>> <<Harris STA.pdf>>
Mr. Kennedy:

This morning, we amended the Harris application (STA File No. 0650-EX-ST-2004), in accordance with your e-mail dated November 29, 2004. A copy of your e-mail, and the amended application, is attached for your reference.

Specifically, the following changes were made to the application:

- 1) A Harris contact, Mark Weems, was added in the Admin section, including his cell phone number. Mr. Weems is being copied on this e-mail as well.
- 2) The proposed operation start date was pushed back to December 15, 2004 to allow more time for Commission review of the Harris proposal.
- 3) The proposed radius of operation has been reduced significantly, from 40 km to 20 km.
- 4) Finally, Harris has reconfigured its experiment in order to comply with your request to specify individual frequencies as opposed to bands. Specifically, Harris is now proposing two 30 MHz-wide frequencies: 7511-7541 MHz and 7672-7702 MHz. In connection with this change, Harris has changed the modulating signal from QPSK to 128 QAM.

We anticipate that these changes will alleviate any concerns that the Commission may have with the proposed experiment. However, if further changes are necessary, please contact me and we will work to resolve any remaining issues.

Regards,

David O'Connor
