

EXHIBIT I

As shown in item 8 of the application, the applicant filed an application to renew the license in 1989; however, no action on that renewal application has been taken. Under section 307(c) of the Communications Act of 1934, as amended, that 1989 renewal application maintains the license in full force and effect, notwithstanding the expiration date stated on the license, until the Commission takes action on that 1989 renewal application. This application is being filed, in an abundance of caution, to inform the Commission that the applicant remains interested in obtaining the renewal of the station license and in ensuring the license's continued effectiveness.
