Subject: FCC File #: 0089-EX-PL-2003 [Reference Number: 2588]

Importance: High

Mr. Kennedy,

Actually, I am very appreciative of your assistance on this matter. Trying to provide you a backup, I did try to send you another response using the regular email response.

I verify that I wish to remove all output powers and effective radiated powers from the Transmitter Section since this experiment will be performed in accordance with 47 CFR, Part 15.109. In addition, I verify that I authorize you to amend the application to reflect the same.

Thank you very much for your patience on setting us straight in order to properly process this license.

Please let me know if you have any questions.

Regards,
Dixon Lau
Senior Telecommunications Engineer
Hawaiian Electric Company

Subject: I haven't received your reply yet.

Mr. Lau,

I apologize for this administrative delay. I haven't received the e-mail you sent yesterday. If you sent it through our website using the "Reply To FCC Mail" icon, I should have received it by now (using the regular e-mail reply sends it to a server and generates pages and pages of special characters. I usually never get to see it unless a system administrator happens upon it).

If you received the e-mail I sent you yesterday (if not, see attachment), please respond to me directly this time at john.kennedy@fcc.gov in the same format as we discussed yesterday and I will enter your response into our system. If you need assistance, please feel free to call me at (202) 418-2484 as early in the day as you can since there is at least a six hour time difference between us. Thank you.

John Kennedy
