Re: File No. 0472-EX-CR-2026
Reference Number 103296

To Whom It May Concern:

HawkEye 360, Inc. ("HawkEye 360") has completed coordination with the FAA for the proposed continued use of the 330 MHz and 1160 MHz frequencies in ELS file number 0472-EX-CR-2026. The FAA frequency coordination numbers are as follows:

330 MHz: NG T261220
1160 MHz: NG T261221

Copies of the FAA email messages confirming coordination are attached.

As noted in the application, HawkEye 360 has requested renewal for a term of two years. The FAA concurrence, however, requests that HawkEye 360 coordinate again the proposed spectrum use prior to December 28, 2026. Accordingly, HawkEye 360 will resubmit an FAA coordination request and submit proof of the completed coordination prior to that date.

Please inform us if any questions should arise in connection with this correspondence.

Respectfully submitted,

/s/ Tony Lin

Dear harringtonjg@gmail.com,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 261177 is assigned an FAA Coordination number NG T261220 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

COMMENTS: NONE

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 12/28/2026; if you need an extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record Parameter
Serial Number	NG T261220
Frequency	M330.0000
City	HERNDON
State	VA
Transmitter Radius	1 NM
Transmitter Latitude	385747.00N
Transmitter Longitude	0772241.00W
Antenna Height	7 Feet
Receiver Latitude	385747.00N
Receiver Longitude	0772241.00W

Equipment Type	U,WINDBREAK TECH SYNTHHD PRO\$TSA 90
Antenna Type	BICONICAL

Best regards,

FAA Spectrum Engineering Services
