Subject: Request for Info - File #0393-EX-PL-2005

---

-----  
Message:

Over the years, there have been several ARGOS applications filed. Since they all use the same frequency, you should be able to find an emission designator from one of those. Use the Generic Search on our filing system and use the frequency search to find other ARGOS applications. Set the start frequency to 401.65 MHz, leave the second frequency field blank, and choose "Exact."

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 03, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
