Subject: Request for Info - STA File #0972-EX-ST-2014

Message:

Good morning,

Here are the details you asked for concerning our STA application.

1. The transmitter will be placed on the wireless camera that will operate in the area of Stand 304 (BMW) at the LA Auto Show taking place inside the Los Angeles Convention Center. It's therefor a mobile transmitter operating in a delimited area.

2. We'll only need one specific frequency in that band.

Thank you for your consideration.

Tanguy Heintz
