Subject: Request for Info - STA File #0623-EX-ST-2006

Message:

1. Both locations show antenna structures taller than 60.96 meters. Are these structures that have already been registered with the FAA?
2. What is the purpose of this application? How does it fit into the experimental radio service scope of service in 47CFR5.3?
3. The product brochure states that this equipment is for unlicensed use. Why is it necessary to file an experimental STA?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 24, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
