Subject: Request for Info - STA File #0878-EX-ST-2016

---

Message:

Sir,

I apologize for any confusion. I have no desire to to withhold information that could be used by a person to contact us in the event that an interference issue is discovered. We would prefer to not have the "public" know we are doing propagation testing. Our information about why the STA is necessary ideally would be withheld. However, if this is a problem then please disclose the "Why" and the "Purpose" of the STA.

R/

Tom Conroe
