Subject: Request for Info - File #0345-EX-RR-2012

Message:

Correspondence Reference Number: 18436 Even THAT was confusing, because your email did not contain enough data to fill out the above.

I seem to have multiple such numbers. The above is from October 16, 2012. Also have a 0636-ex-pl-2007 for the Renewal (?) or Modification (?). And then there is today's (October 31, 2012) 0189-ex-ml-2012. Seems I may have been modifying the original 0636-ex-pl-2007 form with new frequency requests, when I noticed the top right says Expires 09/30/98. Why would that be allowed past 1998? Current WC2XVG license expires December 01, 2012.

So, I am confused. I want to MODIFY and hence RENEW the WC2XVG license. Or is that two separate steps?? Or, do I apply for a new one with the new and old frequency requests and let the old WC2XVG lapse? Instructions not clear.

Only want/need one license.

Next, looking for the fees to send for one License....
