Special Conditions:

- (1) Assignment in frequency bands 960-1400, 2700-2900, or 9000-9200 MHz was coordinated prior to authorization with the FAA Southwest Coordinator, Ft. Worth, TX. Use of frequencies under the authority of this assignment is subject to such further coordination with the FAA Southwest Coordinator, Ft. Worth, TX, as necessary to ensure compatibility with existing uses.
- (2) The station identification requirements of Section 5.115 of the Commission's Rules are waived.
- (3) The occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (4) Operation in the 1736-1755 MHz band requires consent of local Advanced Wireless Service (AWS) licensee(s) to avoid interference.
- (5) This authorization is issued for the express purpose of conducting experimental operations described in the related application and required by U.S. Army contract no. W58RGZ-08-C-0094 and DARPA contract no. MDA972-01-9-0018. The use of this radio station in any other manner or for any other purpose will constitute a violation of the privileges herein authorized. Except as subsequently authorized by the Commission, this radio station shall not be operated after the expiration date of the contract designated in the related application and enumerated above.
- (6) Altitude is limited to 30k feet.
- (7) Coordination with Army national frequency management office at 703-325-8218 is required prior to operation in the 1370-1400 MHz band within radio line of sight. Additionally, coordination with the White Sands Missile Range frequency coordinator at 505-678-5417 is required prior to operation.
