Subject: Additional Information Request

Message:

FCC,

Thank you for reviewing the ELS submission for a GPS retransmission solution.

Based on your feedback, I have amended the application with the following changes...

- 1) The application now details all six antennas that are needed for our location.
- 2) Each antenna has the corrected Power and EIRP values.
- 3) A new "Re-radiation Solution Description (Version 4)" document has been loaded. This new version includes detailed calculations (Table 1) for EIRP.

Thank you,

Isaac Lagnado
