Subject: FCC File No. 0374-EX-ST-2011

Message:

Ms. DiTonno,

You have stated it that your request will be for demonstrating robot maneuverability in Ground Vehicles and Robotics conference. That being the case and if you're demonstrating your products to potential customers why do you need a 6-months license? This is should be done in matter of days. Please be advised that the intended frequency band is allocated to the public safety services and there are possibilities that our bureaus may object to your STA due to extent of requested time period. Would you consider decreasing time frame of your demo's? If so please revise the start and end dates.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 07, 2011 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
