---

Message:

Dear Sir,

We have added another antenna to the STA per your request.

We have further completed an ODAR and will send it to your eMail. It is not clear how we can attach it here.

We are having great difficulty with the API in spacecap. It would be very much appreciated if you could suggest a

reference text or example of a completed small satellite example.

Finally, could you clarify or provide an example of what a "cost recovery letter" should contain?

Thank you

Theodore van Kessel
