Subject: FCC File No.0060-EX-ML-2010

---

Message:

The application (file # 0060-EX-ML-2010) is to permit radar units currently authorized for use in nautical craft operations to be used on land. The manufacture of the radar units in question, (Japan Radio Co Ltd) has indicated that the emission designator for these units is 73M6P0N. Further, the OET's original equipment authorization, form 731, grantee code CKE product code JMA-9300, shows the same emission designator for this radar unit. This is the reason for the bandwidth requested.
