Request for Info - STA File # 0294-EX-ST-2002- Reply

Message:

Actually the equipment can be used by US users, by changing the frequencies. The reason we are using this specific frequency, is because that is the only equipment that is available for us to demonstrate at this time. Yes, a six month period will work just fine for our demonstration. Please advise on what dates to use April 1 - Sep. 30?

Thanks again,

Jose Cardenas
