

3/10/2020

To Whom It May Concern:

This is to certify that:

Inseego deploys and/or manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by Inseego in a controlled environment.

Inseego will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

Inseego has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe Inseego meets the Eligibility criteria for an Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

{Signature}

Randy Wyatt

Principle Systems Test Engineer

Inseego (858) 812-0610
