

An Experimental License is required to operate UAS C2 and telemetry systems. This requirement will support ground/airborne testing and airborne imaging operations around mining areas. This experimental request is being submitted in lieu of a STA extension for operations currently approved for use under FCC File Number 1617-EX-ST-2019 and Call Sign WP9XDS. No changes.

Stop buzzer for this operation is a 24-7 staffed number at 509-637-4691.
