

**United States of America
FEDERAL COMMUNICATIONS COMMISSION
EXPERIMENTAL
SPECIAL TEMPORARY AUTHORIZATION**

EXPERIMENTAL

(Nature of Service)

WJ9XBW

(Call Sign)

XT FX

(Class of Station)

1090-EX-ST-2015

(File Number)

NAME Insitu

This Special Temporary Authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This Special Temporary Authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control the Government of the United States conferred by Section 706 of the Communications Act of 1934.

Special Temporary Authority is hereby granted to operate the apparatus described below:

Purpose Of Operation:

Command and Control Ground Station

Station Locations

(1) Mountainair, NM - NL 34-30-24; WL 106-11-51

Frequency Information

Mountainair, NM - NL 34-30-24; WL 106-11-51

Frequency	Station Class	Emission Designator	Authorized Power	Frequency Tolerance (+/-)
902-928 MHz	FX	230KF1D	61 W (ERP)	

Special Conditions:

- (1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.

This authorization effective October 20, 2015 and
will expire 3:00 A.M. EST March 01, 2016

**FEDERAL
COMMUNICATIONS
COMMISSION**

Special Conditions:

- (3) This operation as a temporary proof-of-concept only. The user must ensure that 902-928 MHz Location and Monitoring Systems (LMS) will not be installed or operating along the railroad tracks or with RLOS vicinity during this testing period. After the completion of this testing, Insitu must seek an alternative radio spectrum for the UAS command/control link, which shall be in a licensable and protected frequency band. Concurrence will not be given to support the use of ISM, FCC Part 5, 15 or 18 or other unlicensable bands for long –term or wide area use beyond the scope of this STA.
- (4) Stop buzzer for this operation is Insitu Operations Action Center at 866-637-4691.
