

September 30, 2020

Introduction

Intel is a world leader in computing innovation. The company designs and builds the essential technologies that serve as the foundation for the world's computing devices. Intel also offers a portfolio of wireless network communications solutions to connect a broad range of devices. Hardware and software products by Intel and its subsidiaries power the majority of the world's data centers, connecting hundreds of millions of consumers, corporate and government IT systems. Intel technologies are also inside intelligent systems, such as automobiles, automated factories and medical devices.

Testing to be Performed

Intel's research and development teams have been advancing new radio standards and technologies for the next generations of wireless devices. An Experimental License is requested for testing and demonstrations.

Location:

200 Smith Street
Waltham, MA 04251

Center point: 42°25'7.00"N, 71°15'15.00"W,
radius = 1 kilometer
Stop buzzer contact: stopbuzzer@intel.com
John Hammond
503-264-8726

Modification to WL2XCV

From: 3.4 – 3.6 GHz
To: 3.3 – 3.6 GHz

Proposed Transmitter & Antenna Parameters
