Message:

Nasonville Substation
445 Douglas Pike
Burrillville, RI

Is the address we are given and is the address on the substation gate.

Google Maps located the substation properly from that address.
It then gave the coordinates that I used.

I do see Burrillville off to the west quite a bit on the map and Nasonville is much closer. If that is needed, we can update the town to Nasonville, but this is a case where the village of Nasonville is part of the Town of Burrillville, as is often the case with townships here in New England.

Wikipedia says: "Nasonville is a village in Burrillville, Providence County, Rhode Island, United States."

The GPS coordinates are correct for the substation, but Burrillville is also the correct town. nasonville is also acceptable.
