I have recently submitted an electronic modification to our existing license for Call Sign WA2XRL with the following changes:

1. Change of address from Redwood City, CA, to Menlo Park, CA, and corresponding change in Latitude and Longitude.
2. Modification of frequency ranges to cover the entire Extended GSM range of:
880-915 MHz (Mobile hand-held station) and
925-960 MHz (Fixed Base Station)
3. Change of mobile, hand-held station power for 1850-1910MHz range from 1 watt to 2 watts, to accommodate American PCS-1900 units of 1.6W nominal power.

Thank you for reviewing this request.
