Invertix Corporation
Attn: Randy Rankin
Anderson Hall / 1050 Stewart Street
Las Cruces, NM 88003

Dear Mr. Rankin,

Your request for frequency coordination for your experimental license is considered locally coordinated and granted per your specifications:

Latitude North 32 23 18

Longitude West 107 3 11

System Specifications:

Frequency Band: 407.000 Mhz – 600.000 MHz

Output Power / ERP: 400W / 10.0 kW

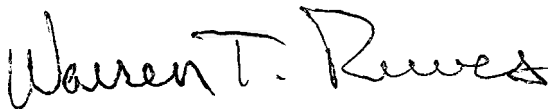

Emission designator: 600KF3N

Radius of Operation: 3000'

In the case of interference to broadcasters in either the 450 to 470 Mhz remote pickup band, or in the case of second harmonic interference with 944 to 951 Mhz studio to transmitter fixed links, you have agreed to either change frequencies in use or cease testing upon notification.

Thank you.

Sincerely,

A handwritten signature in black ink that reads "Warren T. Reeves". The signature is written in a cursive, flowing style.

Warren T. Reeves
