**Exhibit 2**  
**Antenna Information**

**Antenna Information**

- Antenna height of station – 10m
- Antenna type - H. The H-field antenna pattern is 90 degrees both in vertical and horizontal plane.

| Antenna Site | Antenna coordinates             | Tilt (Degrees) | Beam Bearing | Elevation from ground upward (Degrees) |
|--------------|---------------------------------|----------------|--------------|----------------------------------------|
| Pixley       | 35°58'41.8"N<br>119°22'34.2"W   | 3              | -166.1       | 42.7                                   |
| Paso Robles  | 35°42'26.42"N<br>120°43'15.41"W | 3              | 128          | 43.3                                   |
| Fort Bragg   | 39°25'20.52"N<br>123°48'31.19"W | 5              | -25.3        | 43.4                                   |
| Chico        | 39°40'26" N<br>122°1'54" W      | 3              | -56.8        | 48.1                                   |

- Area of interest and antenna locations

| Area of interest                                                                    | Antenna coordinates |                              |
