Subject: FRN problem

Message:

You can contact our folks that work with the CORES system at 202-414-1250. Then go back into ELS. If you go to the add attachment feature and just walk through the pages without submitting anything, then the fee page will come back up and you can pay online. If you still are having problems give me a call at 202-418-2456.

This is from the CORES webpage.

5.I forgot my password. How do I find out what it is?

If you have forgotten your CORES password, please call FCC Technical Support at 1-202-414-1250. You will be asked to provide your FRN and TIN (taxpayer identification number), or if you do not have a TIN, your FRN and PIN (see taxpayer identification FAQs for details). After the appropriate identification, the technical support representative will give you three options:

We can give you your password hint.

We can reset your password to a CORES system generated password and send the new password information via postal mail.

We can assign you a 24-hour temporary password over the phone. With this option you would have to go to the CORES website and change your temporary password within 24 hours of issuance.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 20, 2002 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
