Message:

John,

Thanks again for your help in guiding me through the STA application process!

I've amended the application to include the emissions code for each frequency and each class of station (all of them should be 12-MHz G7D).

If for some reason I still haven't got it right, I authorize you to correct the application to show that all stations and frequencies will have a 12-MHz G7D emissions (sorry, I forgot the official way of writing this compactly!).

Best Regards,

Greg DesBrisay

P.S. Will you be at the Technology Showcase on Monday at the Dept of Commerce Bldg at 14th and Constitution NW? If so, please stop by our display and say hi!
