This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

Wayne:

MIDLANTAFC does not object to the use of the upper L-band channel usage of 2380 MHz by Island Century Media under AFTRCC ICN 1556-21/9020 (Island Century Media STA/Golf Event Aerials-Caldwell, NJ) with the following limitations and restrictions:

- 1) Use is on a non-interference basis to all Flight Test telemetry missions and no protection afforded to Island Century Media operations.
- 2) Unprotected NIB operations are under an MO and XT station class ONLY.
- 3) These words must be placed on the FCC STA: "This temporary frequency authorization is for this testing only as experimental use. This authorization shall not be construed as authorized frequency usage for operational or permanent use anywhere. No priority rights shall be derived from this authorization nor shall this authorization be construed as possible future frequency support."
- 4) Operations shall not exceed 2000 ft altitude and operations must be curtailed if interference is reported. Three days prior to planned emissions, notify the MIDLANTAFC office with a test window schedule and a STOP BUZZER POC will be provided with cell and land line contact information that can cease any and all Island Century Media emissions if EMI is detected. Reference FCC STA # and this AFTRCC ICN 1556-21/9020 coordination when notifying the MIDLANTAFC office of STOP BUZZER POC info.
