

IT MANAGEMENT
PLAN | DEPLOY | MANAGE

May 6, 2019

To Whom It May Concern:

This is to certify that IT Management Corporation deploys and manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by IT Management Corporation in a controlled environment.

IT Management Corporation will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

IT Management Corporation has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe IT Management Corporation meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

Ramin Movahedi
Vice President of Advanced Technology

IT Management Corporation
