

IWL COMMUNICATIONS, INC.

April 10, 1992

EXHIBIT # 1

Federal Communications Commission
Experimental Radio Services
P.O. Box 358320
Pittsburgh, Penn. 15251-5320

To whom it concerns;

Please note that this letter is to serve as exhibit # 1 along with our forms 155 and 422. This application covers our newly purchased INMARSAT satellite terminal. The unit is a TCS-lite model TCS-9200 manufactured by Mobile Telesystems Inc.

IWL Communications, Inc. is a manufactures representative and dealer for Two-Way, Microwave, and Satellite communications equipment. Our intent is to resell the TCS-lite to the end user. The purpose of this purchase is to use the unit as a demo model when making presentations to our customers. Our estimate of usage is approximately twice a week for a short demonstration of less than one hour. Please process our application as soon as possible. If you need any additional information, please contact me at your convenience.

Your time and cooperation is greatly appreciated.

Regards,

Errol Olivier
