Subject:

FCC File # 0316-EX-PL-2004

---

Message:

The additional frequencies were to allow room to change frequencies in case of noise or interference. I will be able to complete the experiment with 151.55; 159.54 for the VHF repeater and 467.15/467.15 for the UHF repeater.

6 months should be enough time to order crystals and assemble the vhf repeater.

James J. Jenco
