

MODIFICATION OF STATION LICENSE

Joby Aero, Inc. (“Joby”), pursuant to Sections 5.3(j), 5.51(a) and 5.54(a)(1) of the Commission’s rules, hereby requests a modification of conventional experimental radio station license WP2XOI.¹ The purpose of this request is to aid the ongoing testing, evaluation and development of Joby’s autonomous flight technology. For the reasons set forth herein, approval of this application will serve the public interest, convenience and necessity, and thus favorable action is warranted.

Joby is licensee of experimental radio station WP2XOI (the “License”). On March 17, 2026, Joby was awarded a Special Temporary Authority with callsign WA9XXK (the “STA”) to support flight operations at the Yuma Proving Grounds. This STA is set to expire on July 1st, 2026. Joby hereby requests a modification of the License to add the location from the STA to the License.

The technical details of this radio station will remain unchanged; Directional antenna(s) associated with this application will be located on the ground: 22dBi parabolic with 11deg beamwidth and dynamically aimed at the aircraft during operation. Aeronautical mobile transceiver(s) associated with this license will be used within 150km of 2CA9 Heliport to a maximum altitude of 70,000ft MSL.

¹ 47 C.F.R. §§ 5.3(j), 5.51(a), 5.54(a)(1).
