Application Narrative for Proposed Equipment

Proposed Program

Juniper Systems, Inc. is proposing GPS within their office building for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the office building, located at 1132 West 1700 North, Logan, UT with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their receivers to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
