Re: KCOP Television, Inc.  
Request for Special Temporary Authority

Dear Sir or Madam:

On behalf of KCOP Television, Inc., licensee of KCOP(TV), Los Angeles, California, there is enclosed for filing with the Commission a letter requesting special temporary authority to operate low power microwave minicamera systems for KCOP's coverage of the Los Angeles Marathon from March 2 through March 4, 2001. Also enclosed are an anti-drug abuse act certification, a copy of a request to AFTRCC for frequency coordination, and a check in the amount of \$50.00 to cover the required filing fee.

If there are any questions with respect to this matter, please communicate directly with the undersigned.

Sincerely yours,

  
William R. Richardson, Jr.

2025 M Street, NW Room 7310  
Washington, D.C.

Dear Sir or Madam,

KCOP Television, Inc., ("KCOP") respectfully requests special temporary authority to operate low power, microwave mini-camera systems in the 2300MHz band for KCOP's coverage of the Los Angeles Marathon on March 4, 2000.

The Los Angeles Marathon is an annual event of substantial size with very large crowd attraction and no less than 15,000 runners. Four helicopters, four moving vehicles, three ENG vehicles and seven fixed microwave sites, will cover the race.

Specifically, KCOP is requesting authority to operate two microwave transmitters on the following frequencies:  
2367 MHz and 2384 MHz

The power input will be 0.25 watts, 17000 F3F emissions, into a BMS 7dBgain antenna with approximately 70 degree beamwidth, right hand circular polarization. There will be two aural subcarriers above the video. An omnidirectional antenna into one 50 dB low noise amplifier, mounted on a helicopter approximately 500 feet above the source will receive the camera signals.

KCOP respectfully requests special temporary authority is granted for the period of March 2, March 3 and March 4, 2001 to allow for set-up and course coverage tests.

The race is on Sunday, March 4, 2001 with main transmissions taking place between 5:00AM and 1:00PM. Frequency coordination with the Southern California Frequency Coordinating Committee and AFTRCC will be accomplished prior to the event.

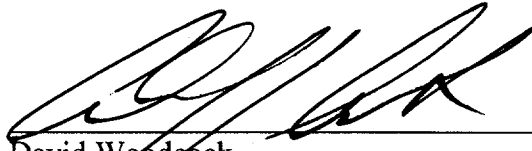

KCOP will be willing to accept a collect telegram notifying it of the grant. Preferably, KCOP would like to receive a facsimile of the grant at its fax number: (323) 851-0379. Should there be any questions concerning this application, please do not hesitate to contact the undersigned. Collect telephone calls will be accepted at (323) 850-2228.

Sincerely,

## **Anti-Drug Abuse Act Certification**

I hereby certify that neither the requestor nor any party to this request is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. section 862.
