Message:

The Center Coordinates are 35-22-19.8 N,; 119-01-04.3 W. Radius of Operation is 150 Km.

This request is for a 5 year license. This license is for stations that will uplink weather data information to the GOES/DCS satellite data collection system. Data is used for fire weather forecasting and for prediction of water runoff and stream monitoring. These stations are expected to continue in service as long as the GOES/DCS satellite system is in operation. Therefore, the maximum allowable term is requested.
