Message:

In response to your email dated 03/22/2011 - 13295 I have made contact with Kimberly Mai in FAA who kindly asked me to send her a mail with the relevant information for coordination. The mail was sent today - 06/04/2011 - with a copy to Benham.Ghaffari@fcc.gov . The information asked for by FCC was included in the mail. Hopefully this is sufficient for FAA to do the necessary coordination.

Please do not hesitate to contact me if any more information is needed for your coordination and evaluation. It is my understanding that we now will have to await for a decision from the FAA before FCC can go forward with evaluation of the experimental licence evaluation. Please correct me if I am in error, or if there are any more outstanding issues in order to consider the license application.
