

Form 442 Question 4 – Government Project Description

Sponsoring Agency – Marine Corps System Command
Contract Number - M67854-07-C-8019

This project is developing a new non-proprietary communications protocol to be used in warfare simulation and training systems. The protocol will be demonstrated on commercial, off-the-shelf radios. The experimental license is centered on an agricultural property in a rural area in reasonable proximity to the Marine's program office, PMTRASYS, for the purpose of testing and verifying the new protocol.
