Purpose

The purpose of this application is to renew the current FCC Experimental Radio Station Construction Permit and License held by Kranze Technology Solutions, Inc.

Reason

The reason for this application is for the event of Kranze Technology Solutions, Inc. (KTS) moving physical locations. As KTS continues to expand and grow, a newer, larger facility became necessary to continue to meet the rising demands of the Department of Defense. With a goal of beginning the official move-in on August 15, 2021, KTS must update and renew our current Experimental Radio Station Permit for the new facility which will be located at 1794 Winthrop Drive, Des Plaines, IL 60018.
