Subject: FCC File No. 0489-EX-CN-2017

Message:

Dear Mr. Ghaffari:

We received your correspondence regarding 0489-EX-CN-2017, Kubos Corporation's CubeSat and associated earth station. In response to your requests:

- 1) I will contact IARU tomorrow.
- 2) The CubeSat will not perform any Earth imaging operations, so NOAA issued a waiver on June 29th, 2017. I uploaded NOAA's Earth-sensing license waiver as an attachment to the application.
- 3) I emailed the SpaceCap file to you already, on July 11th. I will email it to you again. Please confirm that you have received it.
- 5) The application already contains an ITU cost recovery letter, as a PDF attachment. Please let me know if this will meet your needs.
- 6) This information is already contained in a PDF attachment titled "Research Description". Please let me know if anything you need is missing from that PDF.

Thank you for your time reviewing this application, and do not hesitate to reach out if you have further questions.

Tim DeBenedictis
for Kubos Corporation
