From: Program Manager, Counter-Narcoterrorism Technology Program Office (CNTPO)
To: FCC, Experimental Licensing Branch

Subj: STA FILE NUMBER 0272-EX-ST-2009, L-3 BAI AEROSYSTEMS

1. The subject STA application, submitted by L-3 BAI Aerosystems, is requested to grant L-3 BAI Aerosystems temporary permissions to perform acceptance testing flights for Unmanned Aerial Systems (UAS) assets procured by CNTPO under contract W9113M-07-D-0008, Task Order 0016.
2. The frequencies requested: 902-928 MHz, 1370-1390 MHz and 1755-1825 MHz are required for CNTPO operations overseas. In order to ensure a safe and effective operation, L-3 BAI Aerosystems is required to test the assets as it will be used in the field so that we may identify and correct any issues that occur before the vehicle is deployed. In the interest of national security, a favorable consideration for the subject STA application is requested.

Mark Seastrand, PM
CNTPO
