Re: L-3 Communications, Communications Systems West
FCC Form 442 Application for
Experimental Radio Service Application

Dear Mr. Huie:

L-3 Communications, Communications Systems West ("L-3 Comm") hereby submits an original and two (2) copies of FCC Form 442 for a new Experimental Radio Service authorization to conduct experimental research and testing of a fixed wireless local loop ("FWLL") system in the 2.0 - 2.7 GHz Frequency range. The system is being designed for export and is not intended for operation in the United States. Approval by the Commission of this application will allow L-3 Comm to verify design specifications and demonstrate performance capabilities in a wireless environment prior to export.

This application is accompanied by FCC Form 159 and a check made payable to the Federal Communications Commission for \$45.00 for the prescribed filing fee (Code EAE). Should you have any questions regarding this filing, please contact Ms. Jill Redash at (410) 849-3047 or (410) 849-2507.

Regards,

encl.
