AFTRCC comments: non-interference basis to Flight Test telemetry operations within Radio Line-of-Sight.

Coordination for the bands 2310-2320 MHz and 2345-2360 must be obtained from the primarily allocated

service (Wideband Communications Service) in particular AT&T/LTE which is deployed in the

Dallas/Ft Worth area to include Plano, TX. Failure to do so can result in interference to PCS/LTE

services in the area. AFTRCC concurs on a secondary basis only.

Please reply via return email as to concurrence, non-concurrence, scheduling, or additional comments.
