

Time Domain Corporation
Experimental STA Request
September 20, 2002
File No. 0353-EX-ST-2002

Exhibit 3

Operational and Geographic Information

This request seeks a special temporary authorization to demonstrate prototype ultra wideband (“UWB”) units as follows:

Date:	Time:	Location:
October 11, 2002 thru Testing April 11, 2003	8:00 am – 8:00 pm	UWB Communications Technology 1 Federal Street Camden, NJ 08103

Purpose: *To demonstrate UWB technology for testing purposes.*

Number of units: 2 PADs

Antenna gain: nominally 0 dB

Radiated power: less than – 73dBW/MHz

Note: The radiated emissions level will not exceed the limits that would apply to an “unintentional” radiator under the general Part 15 limits set forth in Section 15.109 of the Commission’s Rules.

This device was designed and fabricated before the release of the FCC’s 1st Report and Order on UWB, FCC 02-48.

[NOTE: If operations are to be conducted entirely indoors, you should state this here as part of the request. Indoor only applications generally raise fewer coordination concerns than do those proposing outdoor operations.]

Note: According to the FCC TOWAIR database, the nearest landing area to 1 Federal Street, Camden, NJ is .8299 miles away.

The purpose of the operations to be conducted under this requested authority will be to evaluate and demonstrate UWB as a potential technology in support of products that our company is considering developing for commercial, Federal Government, and international customers. Devices for the U.S. commercial market would be designed and certified in accordance with FCC regulations.

Contact person during hours of operation at location:

Deborah Carroll
Senior Software Engineer
L3 Communications
1 Federal Street
Camden, NJ 08103
856-338-2774
