Subject: Request for Info - File # 1571-EX-ST-2019

---

Message:

Pursuant to the Commission's request for information issued September 24, 2019 in reference to experimental Special Temporary Authority File No. 1571-EX-ST-2019, L3Harris Technologies, Inc. hereby provides the following responses:

1. UAS platform - xFold Dragon x6 Hybrid
2. Maximum altitude of the UAS - 400' AGL
3. COA and loss link procedures - Part 107 operations, 2018-AGQ-805-COA-TS. L3Harris intends to submit a Part 107 waiver by the end of the year. The COA operations are used sparingly to test and collect data on a few concepts for the waiver. Loss link procedures will be a pre-determined waypoint route back to takeoff location and autoland at that location.
