

In addition to the Lenoir City, Tennessee location at 35° 49' 0" 84° 11' 13"; Lakeland Communications wishes to add a second location to our experimental authorization. This will aid engineers who conduct experimentation and development from our Knoxville, Tennessee office 35° 55' 49" 83° 59' 37".

The type and scope of experimentation remains the development and improvement of FM antenna systems as previously described.
