Subject: FW: NEED IMMEDIATE RESPONSE TO STA APPLICATION 0270-EX-ST-2010 (GSM)

Dear Sirs,

After reviewing the information received from Mr. Asongwed concerning D.O.E. frequencies in use (933.1750 to 934.5750 MHz and 942.1750 to 943.5750MHz), it appears that our requested frequencies for ARFCN 35 and 43 would be in conflict. Therefore please consider the following as our requested frequencies for the STA.

ARFCN #	Center Frequency (MHz)
21	939.2
24	939.8
25	940
44	943.8
45	944
119	958.8

Each has a channel bandwidth of 200kHz.

My apologies for any confusion.
Regards,
Rick Heidebrecht
